

NB: When printing this PDF-
Select "Actual SIZE" NOT "FIT"
Check that the Length is 270mm using a ruler

Step 1:
Record your
plane model and
registration number

These measurements are a guide only
Use your own measurements for your
plane eg 24mm = 40 litres

Step 2
Place your current
measuring device
aligned to the bottom edge.
Mark out your measurements
as accurately as possible
along the length and
record the literage at each mark
& mm from the bottom

When complete Scan and return to
ausdip@outlook.com
